PROFESSIONAL SUMMARY

MERN Stack Developer with 2+ years of experience building responsive and scalable applications using MongoDB, Express.js, React.js, and Node.js. Skilled in creating dynamic UIs with React and Redux and developing efficient backend APIs. Passionate to learn and explore more in AWS.

WORK EXPERIENCE

MERN Stack Developer

Nov 2025 – Present

Caldim Engineering Pvt. Ltd., Hosur, Tamil Nadu

- Developed and maintained scalable full-stack applications using **MongoDB, Express.js, React.js, and Node.js** to support enterprise and internal business workflows.
- Engineered secure **RESTful APIs** with JWT-based authentication and role-based access control (RBAC), improving API security and backend maintainability.
- Designed and optimized **MongoDB schemas** with indexing and aggregation pipelines, improving query performance.
- Implemented end-to-end features including pagination, filtering, sorting, and search on both frontend and backend for large datasets.
- Deployed frontend applications on **Vercel** and backend services on **Render**, ensuring high availability and seamless integration.

Frontend React Developer

July 2023 – July 2025

Prematix Software Solutions Pvt. Ltd., Hosur, Tamil Nadu

- Developed responsive and interactive user interfaces using **React.js, JavaScript (ES6+), HTML5, and CSS3** across multiple enterprise applications.
- Implemented state management using **Redux** and optimized component re-rendering for improved performance.
- Integrated frontend applications with backend APIs and implemented dynamic dashboards and data-driven views.
- Collaborated with UI/UX designers to translate Figma designs into pixel-perfect, accessible React components.
- Optimized application performance and responsiveness across devices and browsers through continuous refactoring and testing.
- Actively participated in code reviews, debugging, and feature enhancements across multiple client projects.

SKILLS

Languages & Frameworks	React.js (specialization), Redux, JavaScript (ES6+), HTML5, CSS3, Tailwind
UI Libraries & Tools	Ant Design, Figma
Version Control	Git, GitHub
Databases	MongoDB, MySQL
Backend	Node.js, Express.js
Deployment	Netlify, Vercel, Firebase
Dev Tools / DevOps	VS Code, Postman, npm, Firebase CLI

EDUCATION

Bachelor of Technology in Information Technology

2020 – 2023

Anna University

CGPA: 7.8 / 10

EXPERIENCE

React Developer

Prematix Software Solutions Pvt. Ltd.

July 2023 – July 2025

Hosur, Tamil Nadu

MERN Stack Developer

Caldim Engineering Pvt. Ltd.

Nov 2025 – Present

Hosur, Tamil Nadu

PROJECTS

Prematix Software Solutions Pvt. Ltd.

July 2023 – July 2025 *In-House Project*

- Developed core modules for a retail application including a rule-based **offer engine**, real-time billing workflows, and dynamic dashboards.
- Built reusable and configurable React components to support multiple billing and offer scenarios, improving UI consistency and development speed.
- Integrated frontend workflows with backend APIs to enable seamless data flow across billing, offers, and reporting modules.

Caldim Engineering Pvt. Ltd.

Nov 2025 – Present *In-House / Client Projects*

- Designed and developed OMS, PMS, and estimation systems using the MERN stack.
- Migrated legacy applications to modern **MERN architecture**, improving performance, maintainability, and scalability.
- Built workflows and dashboards to external clients such as **TVS** and **Servotech**.

PERSONAL PROJECTS

Portfolio Website. Personal portfolio showcasing projects, UI experiments, and case studies. Built with React and deployed on Vercel.

School Management Web App. Developed a MERN-stack-based school management system as a freelance project for Johnson School, including student management, attendance, and admin workflows.

DECLARATION

I hereby declare that all the information provided above is accurate to the best of my knowledge.
